

THE LOOT

A game by Louis CLAIS
& Marie GLAIZE

Who will win all of the drawings?

Between 10
and 60 minutes,
depending
on the number of
players

TO BE CUT

- ◆ 66 Square cards: subjects to draw
- ◆ 66 Round cards: to add a challenge
- ◆ 33 Triangular cards: to designate the winner

◆ What you will need :

Drawing materials (paper, pencils, markers...)

A die

A timer

SETTING UP

With the cards facing down, make a draw pile of square cards, a draw pile of round cards, and a draw pile of triangular cards. Choose a spot to stack the drawings as the game progresses, this will be the Loot! ◆ On each turn, one player will lead, while also drawing with the others. A first player will designate themselves as the leader, and from then on, each player will have a chance to be the leader, moving clockwise around the circle.

STEPS

Creation of the Loot

To begin, the leader draws a square card, followed by a round card, and then reads them to the group. They then roll the dice. The number rolled indicates the drawing time in minutes. The leader starts the timer, and we're off! ◆ Players draw what the leader's cards indicated until the timer rings. Everyone then places their drawing in the Loot. ◆ The next leader draws the cards, rolls the dice, and we're off for another round! ◆ When each player has had a chance to be the leader, the Loot is complete. Now it's time to discover all of the drawings!

Who will get the Loot?

The player who was the last leader draws triangular cards until one of them indicates the winner. Players look at the drawings together to find the winner. When a player is chosen by a card, they win the game and wins all of the drawings!
